Moonshine

Yellow flowers  
Bought today  
I bought 'em from the man who lives in the other way  
Wilting flowers  
Couldn't stay  
Not enough water gotta fill 'em to the brink today

Another moonshine  
Oh, moonshine  
Moonlight halo gonna tell about a coming rain  
Another moonshine  
Oh, moonshine  
Moonlight halo gonna tell about a coming ...

I don't believe it can be verified  
I don't believe it can be put right  
It's too confused in all of its facets  
It's too complex in all of its ways  
They just continuing to tell me their trouble  
They just continuing to tell me their lies  
They don't believe in helping their brother  
They're standing still and hearing his cries  
If you believe that you got the power  
If you believe it deep in your heart  
You're on the run in front of a gunner  
You're on the run and no one said start

I said moonshine  
Oh, moonshine  
Moonlight halo gonna tell about a coming rain  
Another moonshine  
Oh, moonshine  
Moonlight halo gonna tell about a coming ...

Red moon rising, dogs are howling  
Throwing stones at Willy on the other side  
Octogenarians intermarrying  
What you gonna do when the light goes out?  
Madly scrambling in the brambling  
Up the mountain like a frightened trout  
Killing relieves the hunting imperative  
Maiming relieves the sadist's delight  
They don't believe in what they are doing  
I do believe that they are uptight  
Safe and secure in maudlin commodities  
Smug and pedantic into their lives  
Stupidity can never make answers  
Pathos is there in all of its might

I said moonshine  
Oh, moonshine

Moonlight halo gonna tell about a coming rain  
Another moonshine  
Oh, moonshine  
Moonlight halo gonna tell about a coming rain

Talk about after, there's gonna be laughter  
Talk about after, yeah, there's gonna be laughter  
Talk about after, heh, there's gonna be laughter someday  
Talk about after, there's gonna be laughter someday

Another sunshine  
Oh, sunshine  
Sunshine comin' gonna be another brand new day, yeh  
Sunshine comin' gonna be another brand new day, ah  
Sunshine comin' gonna be another brand new day  
Sunshine comin' gonna be another brand new ...

#### Lost And Lonely

In the night for the lost and lonely  
They will find that loves the only way for the light  
To shine so bright for them  
They will find it comes along  
And it's always strong  
You don't have to look, or read a book  
It comes to you when you are through,  
with the fight

It never fails to amaze me so  
How the courage comes when the hard times grow  
We find a way to always say, we'll make it now  
We keep on truckin'  
Now you find, it was in your mind,  
The doubt you feel 'bout what is real  
You know at once, you have to trust yourself

Now the love's in a hard cocoon  
Blows away with the wind, and it bursts in bloom  
The open heart, will do it's part, untold  
It senses others,  
long or brief, it's like a thief  
It steals the soul, and makes it whole  
And leaves in it's place, a filled up space  
In the night.

In the night for the lost and lonely  
They will find that loves the only way for the light  
To shine so bright for them  
They will find it comes along  
And it's always strong  
You don't have to look, or read a book  
It comes to you when you are through,  
with the fight

#### Fondest Dreams

At night she comes into my arms and sheds the world of all it's harm, I know  
now she was always meant to stay.  
But callous is the world at large, I need to yet encourage  
her, I sense her insecurities at play.  
and mischievous as she may be, I love it when her mind is  
free, she puts us in our place and there we stay.  
In all our glory and our shame she doesn't feel the need  
for fame, she just wants to express it in her way.

And listening to her fondest dreams, I know that life's not  
what it seems, the shadows of my darkness made to flee.

And by and by the time will pass, we look through this  
lucid glass, we hold before our eyes that we may see,  
and love denies the still despair, that beckons throughout  
all affairs, it only strengthens us when we're in need.  
Of tenderness and music fair, reminding us that we must  
care, and life moves on with no control of speed.

And listening to her fondest dreams, I know that life's not  
what it seems, the shadows of my darkness made to flee.

And joy is what she subtly brings, we know that life is full  
of things, she points them out and makes me see so clear.  
The garden of our love is frail, we must work hard that it  
not fail, a great deal of the strength is in our fears.  
But they're like clouds that fade away, then shape  
themselves another day, and sometimes rain disguised as  
tears, that fall into our heart's desire, to live and  
love we must aspire, for life  
becomes what we make it appear.

### Money Dance

Kicking and clawing in this world of money  
You're already in the middle of world war three  
Backstabbing charlatans standing on a hallowed ground  
Trying to tell you that you are free  
When the banker tells you that it's gonna be alright  
You know that he is talking 'bout his own security  
With six billion people all trying to be the number one  
I think that you can see where that will easily lead

But if you gonna fly with the wings of an eagle  
Then you have to be an eagle at heart  
Soaring through the circus of your own emotions  
And striking out into the dark

'Cause it's a money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance,

Money isn't everything  
It'll never buy you peace of mind  
It'll never buy you courage or pride  
It'll never buy you the things that you want the most  
The things you love that you feel inside  
And you can be sure you will find out who your friends are  
When you are broke they will not run and hide  
They will always be there when you need them  
When the world gets tough and the times get tried

But if you gonna fly with the wings of an eagle  
Then you have to be an eagle at heart  
Soaring through the circus of your own emotions  
And striking out into the dark

'Cause it's a money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance,

Yet the sun keeps shinin' in the brilliant skies  
Even though they may be tinged with grey  
There ain't no reason to keep on freakin' out  
There ain't no reason throwin' life away  
So many people in a world of trouble  
How can this be in a world so bright?  
With life all around you teeming in the distance  
As far away as the farthest night

'Cause it's a money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance,  
Oh, money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance.  
Money dance, funny dance,  
Spinnin' on a wheel of chance.  
Money dance, funny dance,  
Spinnin' on a wheel of chance.  
Oh, money dance, funny dance,  
Spinnin' on a wheel of chance,  
Money dance, funny dance,  
Spinnin' on a wheel of chance.  
Money dance, funny dance,  
Spinnin' on a wheel of chance.  
Money dance, funny dance,  
Spinnin' on a wheel of chance.  
Oh, money dance, funny dance,  
Spinnin' on a wheel of chance,

Money dance, funny dance,  
Spinnin' on a wheel of chance.  
Money dance, money dance,  
Money dance, money dance,  
Money dance, money dance,  
Money dance, money dance,  
Money dance

I Will Never Leave (circa 1985)

She walks kinda funny and she likes to have money  
And she smiles like the sun at times  
She's a paradox born in a woman's form  
That makes you want to lose your mind

So I want to tell you how I really love you  
I will put your heart at ease  
And you can be assured that I will never leave  
And you can be assured that I will never leave  
Now we're in the winter of the months ahead  
And we are dreaming of the years to come  
Of the summers and the fall and the cycles of it all  
That's not readily apparent to some  
Falling heir to the throne of a love that's rare  
Will put your heart at ease  
And you can be assured that I will never leave  
And you can be assured that I will never leave

As we're growing through I know I'll never know  
Everything there is to know about you.  
The quickness of the wit and the solitary fit  
Shatter the myths I would build around you  
All around you

So I want to tell you how I really love you  
I will put your heart at ease  
And you can be assured that I will never leave  
And you can be assured that I will never leave

For your peace of mind I'd suggest a little wine  
And a window where the stars reside.  
When your dreams are fulfilled I'll be there loving still  
And I'll catch you on the other side.

And we'll disperse on a tour of the universe  
That will keep your heart at ease  
And you can be assured that I will never leave  
And you can be assured that I will never leave

Calico and Rainbows

Calico and Rainbows, silhouettes that are edged with light

Malibu and freethrows, sitting there in the noisy night  
Governments and tax woes, immigrants have their plight  
Juliette's in limbo, I can only hope they do what's right.....for us

But you could see what I have seen  
you'd know we're living in a dream  
but whether it's a nightmare is up to you  
Agony and pleasure, insinuate themselves in ways  
Difficult to measure, what you look for in your days Looking for your treasure, are you living in this haze  
Living at your leisure, have you found out what it pays

But you could see what I have seen  
you'd know we're living in a dream  
but whether it's a nightmare is up to you

Holograms and dreamscapes, scherzade before your eye,  
Millipedes and cupcakes, both are me with grateful sigh  
Naughty bit and snowflakes just a moment on the fly  
Celebrate for your sakes, everyone goes to the sky

But you could see what I have seen  
you'd know we're living in a dream  
but whether it's a nightmare is up to you  
But you could see what I have seen  
you'd know we're living in a dream  
but whether it's a nightmare is up to you

The Man<br.

In the castoff world of homelessness he wanders through the day  
He watches as an ambulance goes rushing on its way  
He wonders who it's going to and hope they'll be alright  
He spends them thoughts of prayer and love as the  
Day turns into night  
And when you look into his face you know his life is right  
You see a man who cannot hide and blessed with inner sight  
He walks through inner cities and he helps someone to stand  
He makes them feel a part of us, a soul in the race of Man  
Surrounded by the selfishness of a world that's full of greed  
He does not think about himself, he helps those who are most in need  
He gathers in the strength to care, this ain't no paradise  
He sees the future in his mind and he knows that this ain't right  
And I know there are more of him and women equally  
Working in the world of pain so the rest of us can be  
They are the angels of this world, they show us to the light  
Back to the man who knows these things he will not speak or tell  
You have to understand him now he will not say why he fell  
And some folks think it is falling and some think it is a ploy  
But he doesn't give a damn what we think he  
Knows that it is joy  
And thunder rocks the heavens and lightening splits the skies  
And the rain pours down upon his head and sometimes  
He quietly cries  
But only when he is all alone and loneliness his pain  
We share the battles all of us and we don' t need to be ashamed  
Now we're at 2000 and some are going to flip right out  
And some will learn the secrets of this man and of his route

And hopefully as time permits a few of us just might  
Learn to live our lives in joy and go on through the night  
And nothing's going to change and life goes on as just before  
You do not need to worry but you still go to lock your door  
And by and by the time will come when we will sleep at night  
And love the world before us as we're living in the light</br.

### Power Of A Woman

The power of a woman is the power of love  
They do anything that they're thinking of  
She knows that she is always on your mind!

Where is she now? What is she doing?  
What does she think she's always proving?  
She knows that she is always on your mind?

She dresses to the limit, she dresses to the nines  
Even in the most inappropriate times  
She knows that she is always on your mind!

But when she feels that no one cares  
She starts to think of more affairs  
Never let her start to think she'll be alone

Then you take her in your arms and you hold her near  
You tell her that you love her and you still her fear  
You're only reassuring what she knows is in your heart!

Maybe she's trusting, maybe she's not  
Never keep a secret of your deepest thoughts  
You're only reassuring what she knows is in your heart!

Keeping her friendship, curing her health  
The love you have between you is the greatest wealth!  
You're only reassuring what she knows is in your heart!

But when she feels that no one cares  
She starts to think of more affairs  
Never let her start to think she'll be alone

Possibly comely, possibly homely  
All of us are capable of feeling lonely  
The power of a woman is the love that's in her soul!

Daytime smiles and nighttime tears  
The coming and going of the passing years  
The power of a woman is the love that's in her soul!

Women in the pictures, women in song  
Women are the grace in the world gone wrong!  
The power of a woman is the love that's in her soul!

But when she feels that no one cares  
She starts to think of more affairs  
Never let her start to think she'll be alone

But it really doesn't matter when the winds are blowing  
Whether it's raining, or whether it's snowing  
The sun shines down on all of us in love

The sun shines down on all of us  
The love we are showing is not enough  
The power of a woman is the power she feels in love!

Most Of Us Don't Understand At All

To walk a world that's full of wonder  
Spoil the catch and see the hunter  
Talk of tales of exploitation  
I think I want an explanation  
Further to the situation  
Why we live in degradation  
Most of us don't understand at all  
Most of us don't understand at all

That human life is rent asunder  
Loves defiled and dies in thunder  
We are born with acclamation  
Live to learn intimidation  
Swell to proud exaggeration  
Then we die in isolation  
Most of us don't understand at all  
Most of us don't understand at all  
Most of us don't understand at all

Time is as we can conceive it  
None of us have yet perceived it  
Winds just pass in open ocean  
Clouds can merge in constant motion  
We are clouds in love's emotion  
Rise to heights of joyous notion  
Clouds create the universe of love  
Clouds create the universe of love  
Clouds create the universe of love

Free Samples

Well, if we look around at the world  
Then we look inside ourselves  
I think you know that you will find  
Why we don't hang it on a shelf  
'Cause life goes on in all its ways  
And I know it's gonna be alright  
We gonna go to sleep tonight and we'll make it  
Through the night, 'cause we are real.  
Well are those free samples he said to me  
As he looked inside my bowl.

No, that's the money I have made from the stories I have told  
And some people recognize the truth today  
And some just pass you by.  
You know the ones that are still asleep by the glazed  
Look in their eyes, 'cause we are real.  
And the lights are shinin' on the street out there  
With the people passin' by  
You see their faces and some are smilin'  
And some wanta make you cry  
But life goes on in all it's ways, and I know it's gonna be alright  
We gonna go to sleep tonight and we'll make it  
Through the night, 'cause we are real

Try to Find a Way (aka "Beautiful People" Ste. Foy, Quebec, Wed. May 14, 1997)

Now the Beautiful People think they set the  
Standards and the Beautiful People seem to get the kudos  
But the not so beautiful carry the load  
So the Beautiful People always seem to try  
To find a way to hide their falling tears  
So the Beautiful People always seem to try  
To find a way to hide their falling tears

And the not so beautiful work the menials  
And the not so beautiful make things run  
And the not so beautiful have their moments  
And I know they always have more fun

So the Beautiful People always seem to try  
To find a way to hide their falling tears

But why do we have to make a distinction  
Why do we have to make a choice?  
It only sends us back into remorse

And the Beautiful People have to work at arrogance  
And the Beautiful People have their attitudes  
But an attitude's a front for insecurity  
And all of us are dancing to our changing moods

So the Beautiful People always seem to try  
To find a way to hide their falling tears

So the Beautiful People always seem to try  
To find a way to hide their falling tears

But why do we have to make a distinction  
Why do we have to make a choice?  
It only sends us back into remorse

One Way Ticket

Well I knew this was a one way ticket  
But you know I had to come  
The light that was shining from inside your soul

Told me this was home  
You know I have to roam the world  
And leave you all alone  
I know it ain't the same as bein' there  
This talkin' on the phone  
But love wins out through sun and storm  
And I love you till it's wrong  
And all I really need from you tonight  
Is to know that you'll be strong

And California's not that hot  
Though it don't have that much rain  
And all the greedy people and their money,  
Well, they'll drive you 'bout insane  
And the men keep fallin' all over you  
They'll promise you the moon  
But they'll break your heart from the very start  
And say they'll be back soon  
But we'll do our best like all the rest  
Even when the times get hard  
But if we keep on lovin' each other this way  
We'll hold the winning card

Now the roses bloom outside our house  
And the sun shines in our eyes  
And there ain't much more that a man could want  
Than a good woman by his side  
You know you're a woman that inspires men's dreams  
To makes us carry on  
So keep on shinin' that light of yours  
And listen to this song  
And always try to be yourself  
Don't worry what the others say  
And I will always be right there  
To help you in every way

So we knew this was a one way ticket  
But you know we had to go  
We found each other in a troubled world  
And we've done the best we know  
And I love you just the way you are  
For me you got to do the same  
We both are looking for some peace and freedom  
In this Goddamn silly game  
And I believe we'll make it through  
If we keep our feelings clear  
And let the wind blow through our hearts  
And chase out all the fears.

Yeah, yeah, yeah, yeah, yeah, yeah, yeah.

Sleep Pretty Baby

Sleep pretty baby, sleep pretty baby

Sleep pretty baby and dream away your troubles

I'll keep the bogeyman away from your doors  
Moonlight shinin' on your face through the window  
Just close your eyes and you'll be able to soar  
I said, flying with the freedom of a bird without gilded wings  
Diving and climbing through the canyons of clouds  
When you return you will be able to clearly see  
You will awaken with peace and serenity  
Sleep pretty baby, sleep pretty baby

Morning brings you clarity, the winds become your song  
You can fill your life with joy, your days won't be so long  
I say, moments full of happiness, moments full of love  
Daydreams of the things you want, the things you're thinking of  
Soon become reality, living in your heart  
Make yourself a promise, that life becomes an art  
And sleep pretty baby, sleep pretty baby

Smile pretty baby, and keep away from frowns  
Never let them worry you, most of them are clowns  
Sunsets come in red and gold, evenings come in blue  
Stars are made for wishing on, most of them come true  
Some nights it will rain a little, some nights it will pour  
Some days will be difficult, some nights even more  
Never let them worry you, that's what love is for  
Set your heart on happiness, and open up the door  
And sleep pretty baby, sleep pretty baby

## Peace Song

### The Peace Song Narrative

Throughout the endless reaches of the universe  
there are only two constants, chaos and life.  
On one of the outermost limbs of the galaxy designated  
The Milky Way, there is a very small solar system with  
a G type star at it's center. On the third planet from this  
star, due to a combination of chemicals raised to  
consciousness, there is a sentient species that has  
Arrived at a moment of crucial decision. Where acceptance  
And harmony ensure life, and greed and fear ensure  
Death. What most of them don't understand, is that the  
Only difference it makes is to them

### Peace Song (May Peace Prevail on Earth) (L.A. circa 1986)

May peace prevail on Earth  
May peace be in our homes and countries  
In these troubled times we live in  
We will see the dark come light, Oh  
May peace prevail on Earth tonight  
In our lives

May our missions be accomplished  
May our deeds be won with joy  
And we will thank the guardian deities  
Thank the guardian spirit force, Oh  
May the ship of peace be on her course  
Toward all shores

And the sages make their statements  
And the statesmen have their say  
But we will learn that wisdom comes  
From mistakes we've made upon the way, Oh  
May peace be here to stay  
In our day

And we are gathered here in freedom  
We are gathered here in might  
To show our children the solutions  
That come from peace and why it's right, Oh  
May peace prevail on Earth tonight  
In our lives

And the distant mountains beckon  
And the skies will heed our cry  
And space awaits the joy of mankind  
As we ask the reasons why, Oh  
Yet peace is not so high  
It lies inside

Of every being there is vision  
Each man and woman has a voice  
If we can work together in harmony  
We bring peace out from its source, Oh  
May the ship of peace be on her course  
Toward all shores

For war is not the answer  
It is not the strongest force  
It's love that binds us all together  
And guides the shape of history's course, Oh  
Let all of us rejoice  
And raise our voice

May peace prevail on Earth  
May peace be in our homes and countries  
In these troubled times we live in  
We will see the dark come light, Oh  
May peace prevail on Earth tonight  
In our lives

Par for the Course.

Gotta sleeper in the back a couple nickels in my pocket  
I'm headed toward a thunderstorm, I'm in a little pain.  
Gonna be two of us drivin', just me and that rain.  
But lord I'm gettin' tired of hauling these loads  
Yes I'm gettin' tired of seein' these roads  
One of these days I'm going to have a little sit  
'Cause I'm flat out gettin' too old for this shit
